Cows and buffaloes: 4 ml/animal
Sheep: 2 ml/animal
Goats: 2 ml/animal

pH:
pH In delivery state ~ 3,0

Use biocides safely. Always read the label and product information before use.

PROPERTIES

Nova FD is a rich barrier teat dip based on lactic acid with a clear and visible green colour.

Due to the active lactic acid and high content of caring ingredients, Nova FD penetrates and protects the skin until the next milking.
Significant content of caring and moisturizing ingredients. Creates a breathable film providing optimal microbial protection between milkings.
Reduces the penetration of micro organisms into the milk channel.
Easy to use - no dosing problems.
The green color indicates that all teats have been dipped.
Eases the wiping of the udder.
Biodegradable.
