FOAM ACID 335 is a strongly acidic foam cleaning agent for use in the tobacco and alcohol industry as well as in the food industry.									
Use on acid-resistant surfaces where a quick and effective cleaning and descaling in for example industrial kitchens, the food industry shower rooms, public swimming pools and more is required. Foam Acid 335 is well suited for use on vertical surfaces because the									
foaming cleaning agent makes stable foam with very good adhesion. After 5-15 minutes, the foam is rinsed off with clean water. Do									
not use Foam Acid 335 on untreated aluminum.
